Unmatched combination of **performance**,
efficiency and **affordability**.

That's just what you'll get with the
HVAC Direct

Enjoy the comfort of a HVAC Direct Brand Air Conditioner

Beat the summer heat with a HVAC Direct brand TSX18 R-410A Air Conditioner - a unit that provides you with high-efficiency, reliable performance, quiet operation and what we believe to be some of the best standard warranties and extended service plans in the industry. This air conditioner's worry-free operation and outstanding features add up to outstanding comfort and energy-saving value compared to lower SEER units.

Energy-Saving Efficiency with HVAC Direct

When properly matched and installed, your HVAC Direct brand TSX18 Air Conditioner offers up to 18 SEER high-efficiency performance. "SEER" stands for Seasonal Energy Efficiency Ratio, a measure used by the U.S. Department of Energy to rate the efficiency of air conditioners. The higher the SEER, the greater the efficiency-and the lower the operating cost.

What is R-410A?

R-410A is a chlorine-free refrigerant product that is environmentally-friendlier than R-22 refrigerant. In fact, the Clean Air Act requires that, as of 2010, all new air conditioning units manufactured in North America must use chlorine-free refrigerants. So by purchasing an R-410A air conditioner, you're purchasing the latest in refrigerant technology.

Experience Quiet Comfort

You can be assured that your HVAC Direct brand Air Conditioner will provide you with quiet cooling all year long. To minimize operating sounds, we've acoustically engineered our systems with enhancements that include a compressor sound reduction cover made of high-density foam and a specially-designed wire discharge grille. Additionally, the two-speed operation of the condenser fan motor allows your outdoor fan to run more often at a lower speed.

Commitment to Quality Engineering

Always in pursuit of the highest performance and efficiency, our engineers are constantly evaluating the latest and most reliable technology and applying it to every HVAC Direct brand Air Conditioner. We also design our air conditioners to be some of the easiest to maintain in the industry. But best of all, the operation of your air conditioner can be reviewed by your contractor with the use of the ComfortAlert™ Diagnostics module that we build into all of our premium HVAC Direct brand air conditioning units. This module monitors data from the unit, accurately detects the cause of system-related issues, and communicates the situation to the contractor through an LED indicator using a series of flash codes.

Outstanding Performance

With the exceptional materials, engineering and workmanship that are part of every HVAC Direct brand product, we confidently back our TSX18 Air Conditioners with what we believe to be some of the best warranties in the industry.*

These warranties include the following:

- Lifetime Compressor Limited Warranty* for as long as you own your own home
- 10-Year Parts Limited Warranty* on all functional parts

For even greater peace of mind, ask your dealer or visit our web site at www.hvacdirect.us for more details about HVAC Direct affordable Parts and Labor Extended Service Plan for your entire HVAC Direct brand system.†

Additional Information

Before purchasing this appliance, read important information about its estimated annual energy consumption, yearly operating cost, or energy efficiency rating that is available from your retailer.

Impressive Features and Benefits: HVAC Direct TSX18 R-410A High Efficiency Air Conditioner

- High-efficiency up to 18 SEER cooling performance
- Chlorine-free R-410A refrigerant
- Lifetime Compressor Limited Warranty* for as long as you own your home
